

# Pfingstexkursion 2023

Tuesday 30.05.2023 to Thursday 01.06.2023

## Water Resources Management in Baden-Württemberg

Prof. Dr. Mário Franca, Prof. Dr. Olivier Eiff, Prof. Dr.-Ing. Erwin Zehe, PD Dr.-Ing. Stephan Fuchs

# Program:

- Visit the following places and more...

The map shows the Danube river basin with five red stars indicating visit locations. Callout boxes with photos provide details for each location:

- Guided Tour of the Linach-dam and flood control reservoir Wolterdingen\*** (Aerial view of a dam and reservoir in a forested area).
- Visit the drinking water reservoir Kleine Kinzig** (View of a reservoir with a dam structure and surrounding forest).
- Visit the revitalization project of the Danube source** (View of a riverbed with exposed rocks and sparse vegetation).
- Visit the pumped storage power plant Eggbergbecken** (Aerial view of a large, oval-shaped reservoir in a valley).
- Guided tour of the water supply system Bodensee\*** (View of a large circular water treatment tank with water being processed).

\*The guided tours will take place in German with simultaneous translation to English

- Our place for the nights:

<https://hotel-restaurant-lindenhof.de/>
